

SOUND STAGE PRODUCTION REPORT

REPORTING PERIOD: JANUARY - JUNE 2017

In late 2017, FilmL.A. launched a new ongoing study of filming on Los Angeles-area certified sound stages. FilmL.A.'s first report, available for download at www.filmla.com/soundstage-study, presented a first-of-its-kind analysis of local sound stage-based production, based on activity that took place from January – December, 2016.

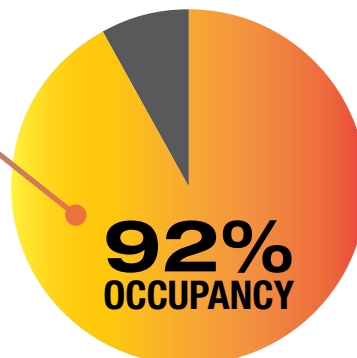

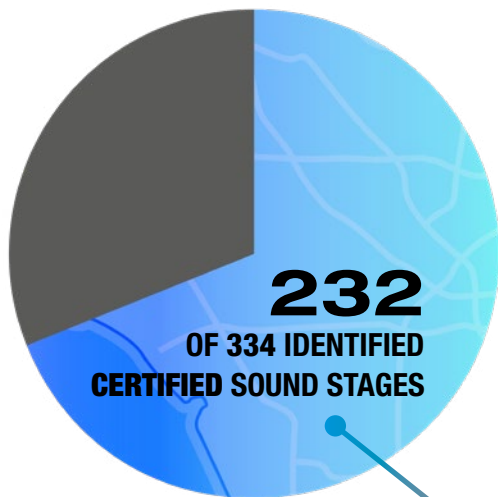

This update extends that analysis of local sound stage filming levels, adding new data from January – June, 2017.

FilmL.A. has identified 334 certified sound stages in Greater Los Angeles – the 12 volunteer studio partners currently enrolled in this study control 232 certified stages, or nearly 70 percent of the known certified stages in the region by property count.
