*On-location production figures are based on days of permitted production within the jurisdictions served by FilmLA. One "Shoot Day" (or "SD") is defined as one crew's permission to film at one or more defined locations during all or part of any given 24 hour period. This measure determines how many days of work film crews perform during a given time period. FilmLA data does not include production that occurs on certified sound stages or on-location in jurisdictions not served by FilmLA.
