

WHAT IS A GRID LOCATION?

- Grid locations consist of 4 intersecting streets that form a square.
- Grids are intended for small crews (typically 10 or less) with very low impact activity. Only handheld equipment is allowed for grid locations.
- Grid locations do not include special conditioned areas, beaches, parks, or other City or County owned facilities. They also exclude freeways and cities outside FilmLA's jurisdiction. They're primarily intended for the use of commercial city streets and sidewalks only.
- Time is limited to a maximum of 2 hours at any one place within a grid.
